SUMMARY

Final year Computer Science undergraduate with hands-on experience in manual testing, test case design, defect reporting, and automation using Selenium and Postman. Comfortable working in Agile SDLC/STLC environments with strong analytical thinking and attention to detail. Passionate about improving software reliability through structured, quality-focused testing.

EDUCATION

BSc (Hons) in Computer Science

2023 – Present

General Sir John Kotelawala Defence University - Rathmalana

G.C.E. Advanced Level – Physical Science Stream

2021

Kalutara Vidyalaya - Kalutara

SKILLS

- **Testing:** Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Exploratory Testing, Integration Testing
- **QA Processes:** SDLC, STLC, Agile & Scrum, Defect Life Cycle, Requirement Analysis, Test Planning, Test Specification, Bug Reporting
- **Automation Frameworks & Tools:** Selenium WebDriver, TestNG, Postman, GitHub, Jira
- **Programming:** Java, Python, HTML, CSS, JavaScript
- **Frontend Development:** React, TypeScript
- **Database:** MySQL, Firebase
- **Cloud:** AWS (Basic), CI/CD, Github Actions

PROJECTS

Accident, Complaint & Certification Management System – Bio Foods (PVT) LTD

Group Project | QA Role | MERN Stack

- Designed and executed 40+ manual test cases across accident reporting, complaint management, and certification tracking modules and performed API testing with Postman.
- Logged and tracked defects through full lifecycle and validated data integrity using SQL queries against the backend database.

Attend AI – Intelligent Attendance System

Python, Flask, dlib, OpenCV

- Authored 25+ test scenarios for face detection, attendance logic, and notifications.
- Identified environmental failures and validated detection pipelines via regression testing.

Selenium Test Automation Framework

Ongoing Project | Java, Selenium WebDriver, TestNG

- Developing a test automation framework using Selenium WebDriver and TestNG with the Page Object Model design pattern.
- Executing regression suites via TestNG XML with Extent Reports.

PlanTogether - A Multi-Organization Event Planning Platform

React, TypeScript, Firebase

- Executed 30+ test cases for event creation, voting, and RSVP features.
- Implemented unit tests with Jest, validating Firebase auth and real-time sync.

Final Year Research Project

- AI-assisted Feynman-style simplification for improving university students' knowledge comprehension and retention

Bookstore Management System using Ontology & Multi-Agent Simulation

Python, Owlready2, Mesa

- Designed and tested agent-based scenarios for browsing, purchasing, and restocking workflows.
- Validated SWRL rule logic and inter-agent communication through exploratory GUI testing.

PUBLICATIONS

- **Development of a Smart Mirror System Based on Kansei Engineering for Enhanced User Experience** - 6 Student Symposium of KDU (Group Research) 2026

CERTIFICATIONS

- Foundations of Software Testing and Validation – University of Leeds
- Learn Automation Testing with Java and Selenium WebDriver Specialization – Packt
- Postman API Fundamentals Student Expert – Postman
- Database Structures and Management with MySQL – Meta
- Java Programming for Beginners – IBM
- Object-Oriented Programming and Java Fundamentals – Packt
- Version Control – Meta
- AWS Cloud Technical Essentials – Amazon Web Services
- Programming with JavaScript – Meta
- Diploma in IT - Esoft Metro Campus

COMPETITIONS

- Finalist – CryptX 1.0 Hackathon, University of Sri Jayewardenepura (2025)
- 3rd Place – ByteBlitz Mini Hackathon, General Sir John Kotelawala Defence University(2024)
- Finalist – Cypher 3.0 Data Security Hackathon, General Sir John Kotelawala Defence University(2025)
